OF THE UINTA BASIN IN UTAH.	)	Civil No. 3070

---

Pursuant to the Motion of the State Engineer for an Order of Distribution requesting that the waters of the Duchesne-Strawberry River System be distributed according to the schedule prepared by the State Engineer and for an interim Order of Distribution, and good cause appearing therefore, it is hereby ORDERED that:

1. The Duchesne River Commissioner is to distribute the waters of said system according to the distribution schedule prepared by the State Engineer (attached hereto as Exhibit "A") when the flow of water drops to the point that it becomes necessary to place the Duchesne-Strawberry River System on regulation pending further Order of this Court;

2. The River Commissioner is further allowed to use Starvation Reservoir as a regulating device in conjunction with the distribution schedule for those water users making appropriate arrangements with the Central Utah Water Conservancy District, so long as other rights are not impaired, and so long as such users have in place adequate measuring devices approved by the State Engineer;

3. This Order shall take effect upon execution by the Court, and shall remain in effect for the 1995 irrigation season unless otherwise ordered by the Court. Provided, however, that nothing in this Order shall foreclose a water user from filing an objection at any time during the 1995 season;

4. This Order is made and entered without prejudice to the claims or assertions of any of the parties in subsequent proceedings in this action, and does not constitute a final determination by this Court on the rights of the parties or the final duty of water from this source.

DATED this \_\_\_\_ day of \_\_\_\_\_, 1995.

BY THE COURT:

JOHN R. ANDERSON, DISTRICT JUDGE
